Explanation

Billing

In case you order an extra or replacement card we will charge you €9.00. This amount will be debited from your billing account immediately. All running costs will be debited from your billing account once a month (on your billing date).

We will start billing for an extra card or extra bank accounts, on the first billing date following the activation of the extra card/the moment we received the order for the extra bank accounts.

Upgrade

The above mentioned pricing will apply to you immediately from the moment you upgrade. However, we will only start billing for the subscription fee on the first billing date following the upgrade.

We will charge you the monthly fee for extra cards and/or accounts in case you upgrade and your number of cards and/or accounts exceeds the number included in your subscription.

By way of illustration, imagine you have five active bunq cards and decide to upgrade to bunq Premium. Only three bunq cards are included in your bunq Premium subscription, so on top of the subscription fee we will charge you a monthly fee per card for the two cards which exceed the included amount.

On the first billing date following an upgrade, we will count the number of withdrawals over the previous billing period (incl. any withdrawals made after the last billing but before the upgrade) and we will charge a fee for all withdrawals above the number of withdrawals included in your subscription.

By way of illustration, imagine you made eight withdrawals since your last billing date and subsequently you upgrade. After the upgrade you made another four withdrawals. On the next billing date we count a total of twelve withdrawals. Ten withdrawals are included in your subscription, so we will charge you for two withdrawals.

Downgrade

Please be aware that we will automatically deactivate all your cards in case you downgrade from bunq Premium to bunq Free. All your bank accounts will stay active but you will not be able to add extra bank accounts.

When you downgrade we will furthermore delete all your API keys.

bunq Pack

Fees	
Pack fee	€19,99 p/m
Maximum number of included accounts	4 bunq Premium accounts or 3 bunq Premium accounts and 1 bunq Business account

Explanation

Composition

It is possible to have a bunq Pack with one to four different bunq Premium accounts or a maximum of three bunq Premium accounts and one bunq Business account. This includes the account of the Pack owner.

Billing

The bunq Pack owner is the user who initiated the formation of the Pack. Only the Pack owner will be invoiced for the Pack fee. The other members of a Pack will not be invoiced for their respective monthly account fees as long as they stay member of the Pack. All other charges will be invoiced normally.

By way of illustration, a bunq Premium Pack member will not be charged €7,99 per month, but he/she will be charged if he/she would order a replacement card or would make more than ten withdrawals in one month.

You can leave a Pack anytime you want and every bunq Pack owner can terminate his/her pack any time he/she wants. Depending on your type of account we will apply bunq Premium pricing or bunq Business on you in case you leave a Pack or if the pack you're in gets terminated.

Please be aware, if you have bunq Free and join a Pack we will automatically upgrade you to bunq Premium. This means you when you leave the Pack bunq Premium pricing will apply to you.

We will automatically terminate a Pack if the Pack owner is in arrears with the monthly fee.

Applicable pricing

With exception of the monthly account fees, pricing from the 1st of August 2017 is applicable to the Pack holder and all Pack members.

If the receiver rejects your request, you are charged €1.00. If the receiver pays the request with bunq, then that's considered a payment to you, so we will charge you €0.05. When the request is paid with iDEAL/SOFORT, we will charge you €0.20 (instead of €0.05).

When you accept (pay) a request with bunq, that's considered a payment to the sender of the request.

Revoking a request is free of charge. You can only revoke a request if the request has not yet been rejected or paid. Even if you have revoked a request, we will still charge you for sending it.

Attachments

You can add an attachment to a payment. Sending an attachment costs €0.10 per attachment.

Connect

With bunq Connect you can give someone access to a bunq bank account. You pay €1.00 per month, per account, for each person you give access. If you block and unblock someone's access to an account multiple times during a month, it is still considered one Connect. The fee is also charged if you accept an incoming Connect; if you get access to someone else's account.

Chat

Sending chat (text) messages via bunq costs €0.02 per message. Chatting with bunq support employees is free. Sending an image or other file via chat is considered sending an attachment and is charged accordingly (€0,10).
