<b>API - PSD2 developers</b>	
Package of personal, dedicated guidance and troubleshooting from our support team	€3.500 per 10 hours of support.

## Explanations

### ◆ bunq Pack

bunq is better together. That's why we made it super easy to enjoy bunq with your friends, family or partner(s)! By starting your own bunq Pack, you can share the bunq experience with up to 3 other people: It's possible to have a bunq Pack with a up to 4 bunq easy Money Personal/ easyGreen Personal accounts or 3 bunq easyMoney Personal/ easyGreen Personal accounts and 1 bunq easyMoney Business/ easyGreen Business account. This includes the account of the Pack owner.

The bunq Pack owner is the user who initiated the formation of the Pack. Only the Pack owner will be invoiced for the Pack fee. The other members of a Pack will not be invoiced for their respective monthly account fees as long as they stay members of the Pack. If a Pack member upgrades to easyGreen Personal or easyGreen Business, he/she will be charged only for the difference between easyMoney Personal and easyGreen Personal or between easyMoney Business and easyGreen Business fees. All other charges will be invoiced normally.

By way of illustration, a bunq easyMoney Personal Pack member will not be charged €7.99 per month, but he/she will be charged if he/she orders a replacement card or makes more than ten withdrawals in one month.

You can leave a Pack anytime you want and every bunq Pack owner can terminate his/her Pack any time he/she wants. If you leave a Pack, you can still access all the bunq features that make life easy and help you save time. Depending on your type of account we will apply bunq easyMoney Personal or bunq easyMoney Business pricing for you in case you leave a Pack or if the Pack you're in gets terminated.

We will automatically terminate a Pack if the Pack owner is in arrears with the monthly fee.

### ◆ bunq +1: sharing a bank account made easy

Want to share a bank account with someone who's not a bunq user? Simply invite them as your +1.

In just one tap, you can create a joint account with your partner, a bank account for your child, or an employee expense account.

You and your +1 both get full access to the account and your +1 gets a card too! (They can choose between a Maestro, Mastercard Debit or Travel Card.) Your +1 also gets 1 free ATM withdrawal every month.

For just €2,99/month you can invite someone as your +1 if you're a bunq easyMoney Personal, bunq easyMoney Business or bunq easyGreen user. Your +1 will not be charged anything. Your +1 will be subject to the deposit holding fee if their account balance is over €100,000. Your +1 does not receive MassInterest, but can upgrade to easyMoney Personal if they would like to do so at any time.

### ◆ bunq Metal Card

1 bunq Metal Card is the most elegant, most sustainable and most widely accepted Metal Card available. The Metal Card can only be ordered upon pre-payment of either 24 months of bunq easyMoney Personal or bunq easyMoney Business, 12 months of bunq easyGreen Personal or bunq easyGreen Business, 12 months of bunq Pack (Pack owner) or €129 (Pack member). This pre-payment is non-refundable.

Under the old Metal Card plan, the Metal Card could be ordered for free, provided that you remain a bunq easyGreen Personal or easyGreen Business member for at least 1 year from the date you ordered the Metal Card. If you have received your Metal Card for free under the old Metal Card plan and you cancel your easyGreen plan earlier than 1 year from the date you ordered your Metal Card, we will charge the difference between the value of the card (€129) and the amount you've paid in plan fees since that date.

### ◆ Billing

In case you order an extra or replacement card we will charge you €9.00. This amount will be debited from your billing account immediately. All running costs will be debited from your billing account once a month (on your billing date).

We will start billing for an extra card or extra bank accounts, on the first billing date following the activation of the extra card/the moment we received the order for the extra bank accounts.

### ◆ Upgrade

The above mentioned pricing will apply to you immediately from the moment you upgrade. However, we will only start billing for the plan fee on the first billing date following the upgrade.

We will charge you the monthly fee for extra cards and/or accounts in case you upgrade and your number of cards and/or accounts exceeds the number included in your plan.

By way of illustration, imagine you have five active bunq cards and decide to upgrade to bunq easyMoney Personal. Only three bunq cards are included in your bunq easyMoney plan, so on top of the plan fee we will charge you a monthly fee per card for the two cards which exceed the included amount.

On the first billing date following an upgrade, we will count the number of withdrawals over the previous billing period (incl. any withdrawals made after the last billing but before the upgrade) and we will charge a fee for all withdrawals above the number of withdrawals included in your plan.

By way of illustration, imagine you made eight withdrawals since your last billing date and subsequently you upgrade. After the upgrade you made another four withdrawals. On the next billing date we count a total of twelve withdrawals. Ten withdrawals are included in your plan, so we will charge you for two withdrawals.

#### ◆ **Non-euro card payments and cash withdrawals**

For transactions executed in currencies other than euro, we convert the transaction amount to euro using the Mastercard exchange rates before we debit your account. This means the initial amount debited at the time of payment is an estimated amount, which may differ from the final amount after the payment is fully processed due to possible exchange rate fluctuations. If you want to check the current Mastercard exchange rates, please have a look at their website.

#### ◆ **Swift inbound transfers**

Swift inbound transfers are transactions that are made or requested outside of the SEPA-area. Depending on the volume of the amount of these payments, we charge inbound Swift costs.

#### ◆ **Incidental special costs**

Sometimes your incidental financial matters with a third party require us to get involved. Because this involvement requires time and effort from our side, we can charge you the costs we make in order to do our job.

##### - **Garnishments**

Third parties have the possibility to (preliminary or definitely) extract funds from your account to repay an outstanding debt, for example due to unpaid taxes or open loans. These third parties require either a prior permit from a judge or a court order to put a garnishment of your accounts. As processing these garnishments is a difficult and timely process, we charge you with the costs as described above. When you have a positive balance on your accounts, we will settle the balance with the costs. We will also charge you with the costs when there is no balance on the accounts.

##### - **Bank statements**

Your organisation may be required to provide a standard bank statement towards your audit firm. To support your organisation with this, we can draft the required statement in accordance with the format as provided by the NBA (<https://www.nba.nl/tools-en-voorbeelden/standaardbankverklaring/>) in Dutch or English. When you request us to draft a standard bank statement for your account with us, we will charge you the applicable fee.

##### - **Mastercard Chargebacks**

Chargebacks are situations in which you dispute a card payment you made. Please note that Mastercard can decide the dispute was unjustified (either before or after arbitration), for which the costs will be charged to you. Any additional costs charged by Mastercard for fraudulent or incorrect chargebacks (on top of the above-mentioned cases), we hold the right to pass these costs on to you when your case gives reason to do so. We want to stipulate that these costs can be substantial. For more information on these costs, please refer to the Mastercard Chargeback Guide.

##### - **Export of statements from a permanently closed account**

If you would like to export a bank statement for an account that you have decided to close permanently, we are happy to help. However, since this requires a lot of time and effort on our side to make this happen, we will charge you a fee to export a bank statement for a permanently closed account. Please check [www.together.bunq.com](http://www.together.bunq.com) if you would like to close your account through the app in a way that lets you export bank statements and avoid this fee.

##### - **API support for PSD2 developers**

We want to provide PSD2-licensed developers with support when it comes to their app's connection to the bunq PSD2 API. Support can be acquired in packs of 10 hours. Our software will keep track of the hours of support you have used up. The purchased support hours are non-refundable. Support can be requested by sending an email to [apipartner@bunq.com](mailto:apipartner@bunq.com). For an overview of what is and isn't included in this support package, see the relevant terms and conditions at [www.bunq.com/terms](http://www.bunq.com/terms).

◆ **Deposit holding fee**

We keep your funds as simple and clean as possible. This comes at a substantial cost to us as we keep most of them at the European Central Bank. To fund this for larger balances of over €100,000, we have a fee of 3 cents per day, per €1000 (rounded down) that applies to your balance above €100,000.

By way of illustration, imagine you hold €100,000 in your bunq account(s). This balance is free of charge. If you hold €105,700 in your account(s), you will be charged 3 euro cents for every day per extra €1000 you have, so you will be charged €0.15 per day that you have this balance.

**Deposit Guarantee Scheme**

bunq easyMoney Personal, easyGreen Personal, easyMoney Business, easyGreen Business and bunq easyTravel accounts are covered by the Dutch Deposit Guarantee Scheme (DGS). This means that the funds on these account(s) are insured (up to €100,000 for all accounts combined) in case we go bankrupt. Please check our [DGS information sheet](#) or [Dutch Central Bank \(DNB\)](#) for more information.
